

EAGLE
'62

The Eagle

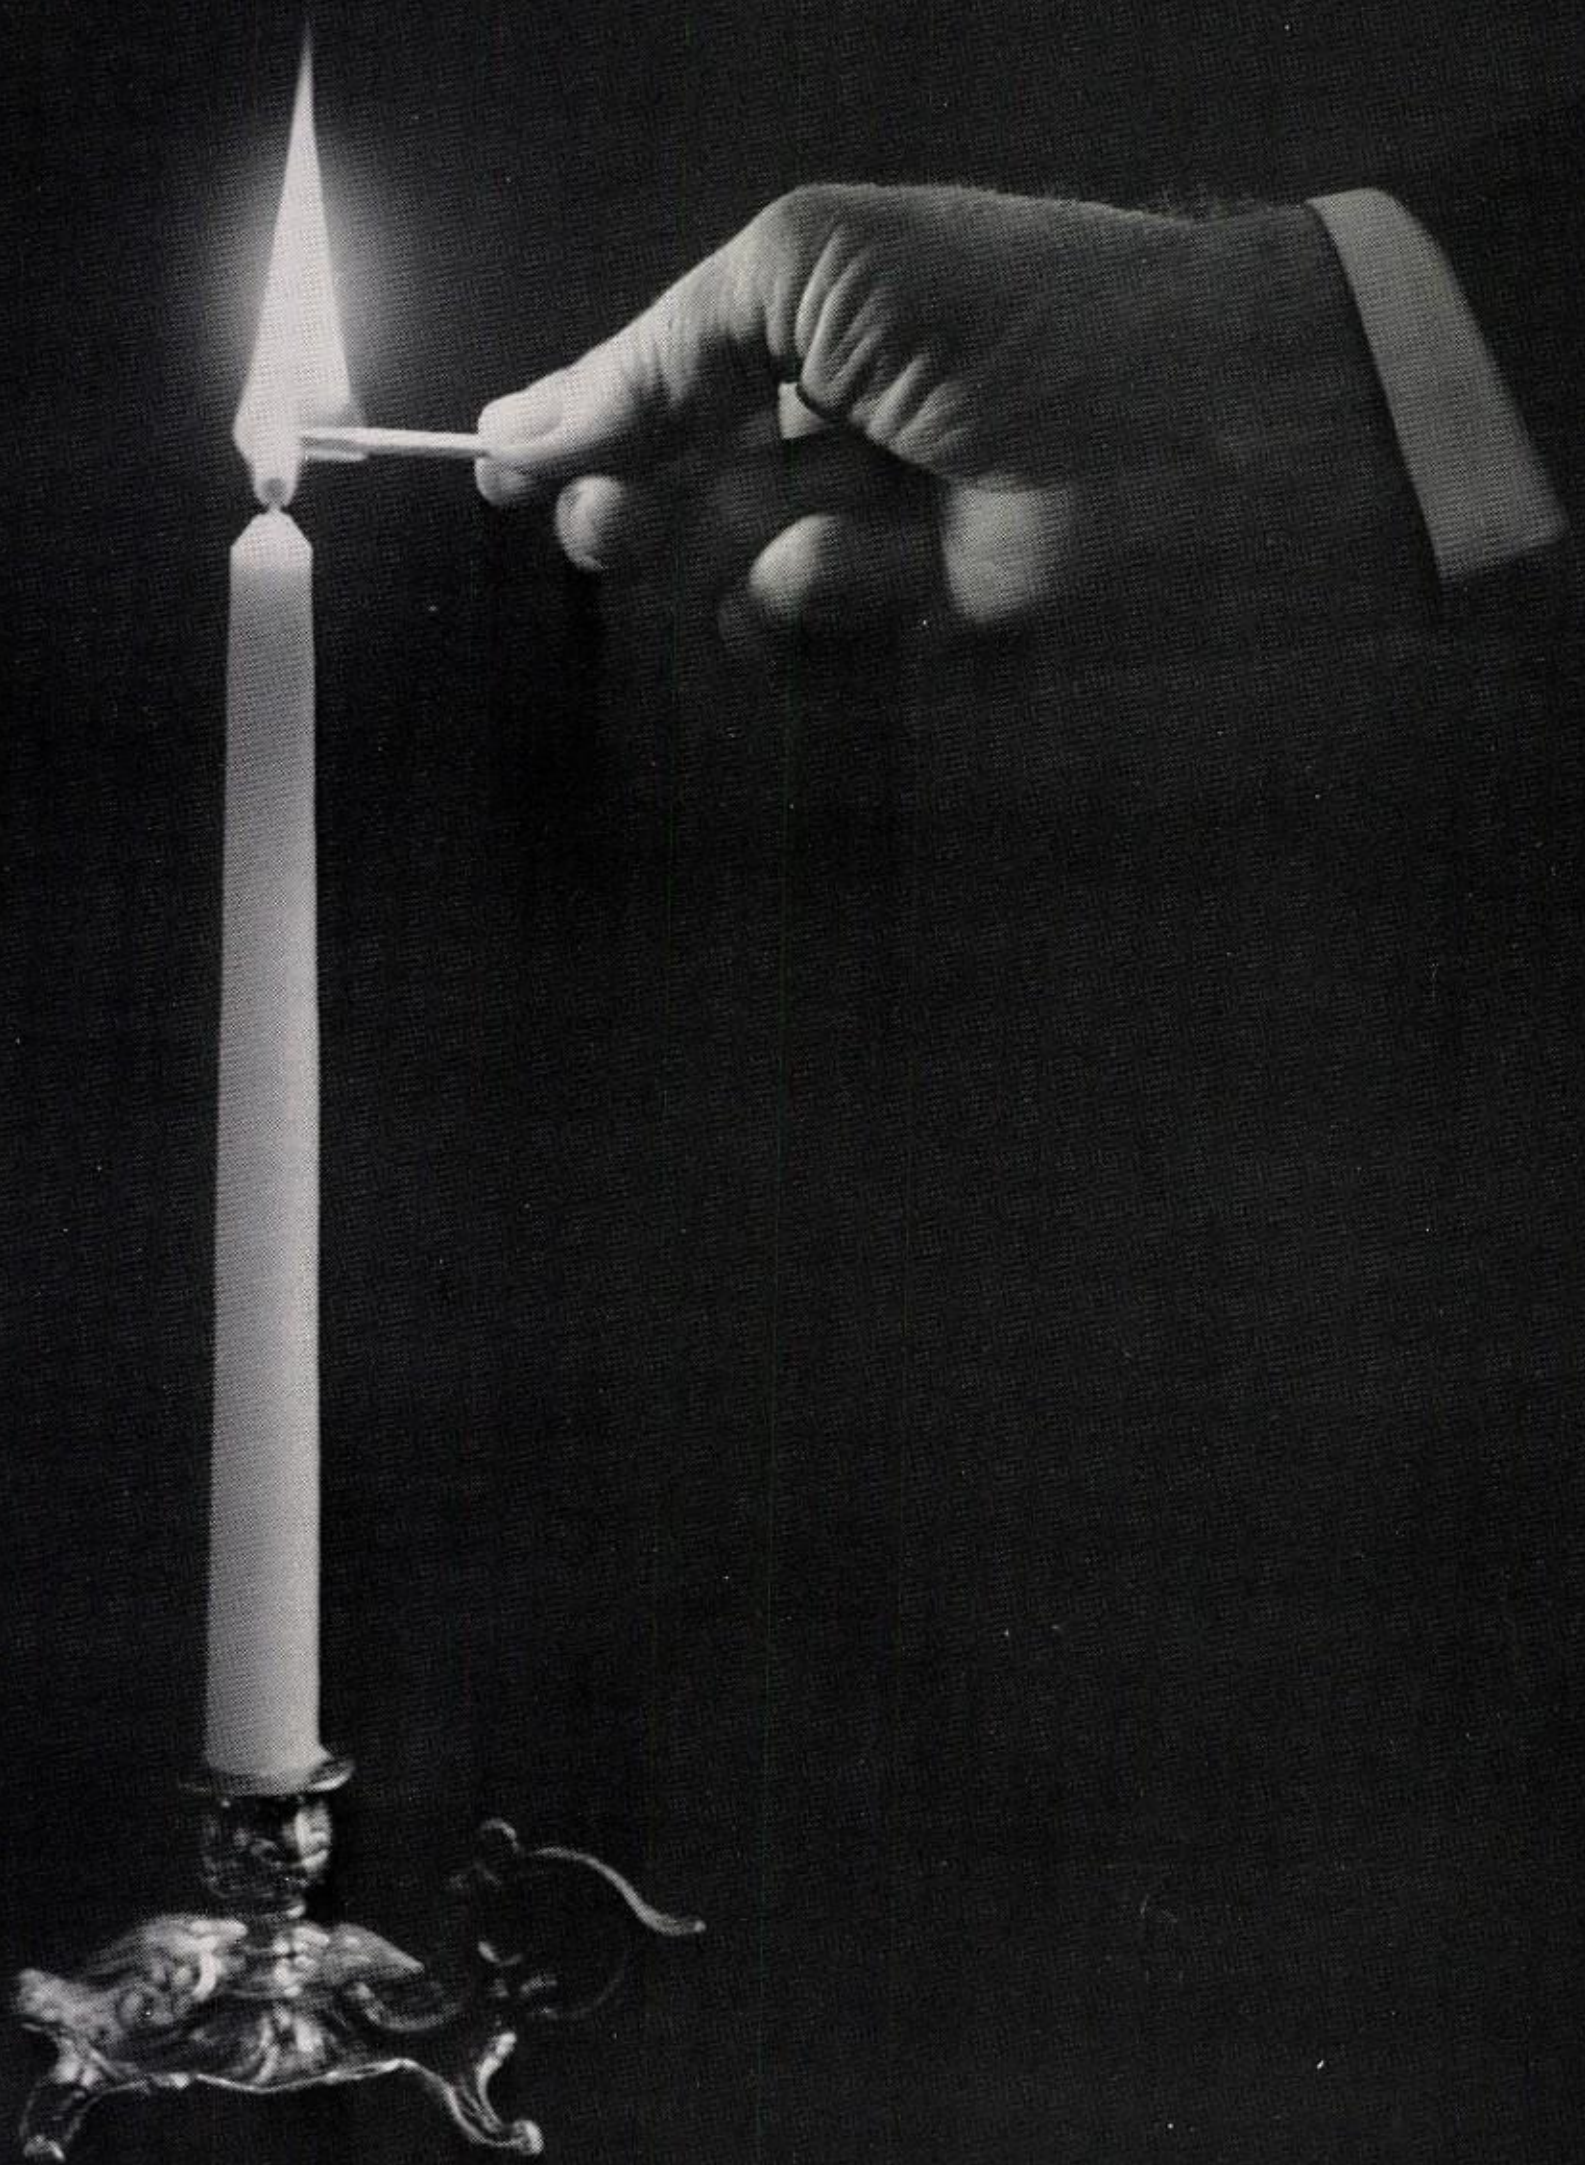

Presented by the
ANNUAL STAFF OF ROOSEVELT HIGH SCHOOL
LUBBOCK COUNTY

1962

To one who has worked with the Latin Americans
so efficiently for ten years.
To one who has untiring patience.
To a wonderful person - we dedicate this annual,
The Eagle, to you, Mrs. Bowles.

ADMINISTRATION

School Superintendent

MR. MARVIN WILLIAMS

Students,

You who are entering high school for the first time should realize the importance of broadening your educational experiences. Your success in life, both financially and socially, will probably be in proportion to the extent in which you make use of your educational opportunities. If you fail to make use of these opportunities during high school, you will be handicapped throughout life.

You who are finishing, or about to finish high school will soon discover just what use you have made of your time and opportunities in high school. You cannot undo the past but you can make the most of your learning experiences. What you have learned is not so important as how you use your learning experiences to solve the problems which confront you.

It has been a pleasure to work with young men and young ladies as we have in this school. You have helped make Roosevelt High School what it is.

My best regards to all of you.

Marvin Williams

High School Principal

MR. ELMO SMITH

Perhaps we in school, too often, leave the impression with students that the facts to be learned in the lessons of today are all-important.

After these facts have eluded our memory there remains the attitudes and understandings gained from a good general education.

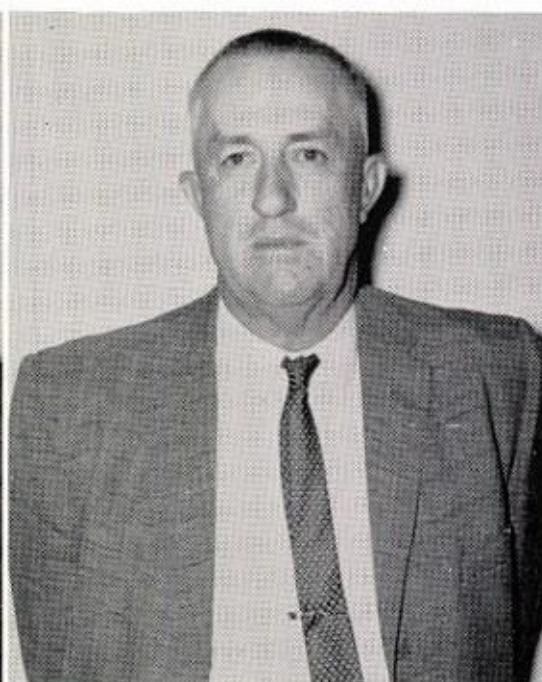

It is my sincere desire that your experiences this year will contribute toward the attitudes and understandings you will need most in the years ahead.

Chorus 3.

1962 Senior Class Prophecy

As we look into the future of the Senior Class of '62, we notice how their special abilities help them in their occupations and activities.

Tommy has put his great math ability to work as the head and chief customer of the T.N. Weaver Tobacco Company.

Sylvia is now in the process of trying to pass her thirty-first course under the great L.C.C. professor, ROLAND-BABE. She's majoring in train engineering.

Dwight is trying to develop a way of spearing frogs while on one ski and behind his fastest donkey.

Lometa is residing in New York and working as a high fashion model.

As we look into the future, we see James as a permanent resident of Sing Sing because of his illegal operation of a slot machine business.

Delonia is in competition with KDUB after she won all of KSEL'S records.

Jim was forced to liquidate his cattle company by the city of Lubbock. He is now a perfume salesman.

Gatha is trying to pass Biology under a woman teacher.

While Bill Sides isn't busy with his coast-to-coast grocery store chain, he operates an instant car-lowering service.

Linda is secretary to the head of Roosevelt's Business Department.

Kenneth operates a chain of segregated service stations all the way from Acuff to Idalou. With each ten gallons of gas, he gives away a free hamburger.

Terica has been a big success in the "advertising" department of Metrecal, Inc.

Garland's hit album has reached the one million mark. He calls it, "Crying Over Patsy."

Ronny sold his washing-machine-motors-for-cars business and is now one of the chief stockholders in T.W.A. Airlines. In his spare time he has a television series called "Sky Meek."

(Con't.)

Zanna is foreman in a boiler factory. She is well known for her ability to be heard above any type of noise.

Neil - poor Neil. We see Neil in the hospital recovering from a very serious case of dish-pan hands.

Brenda, well-known for her dancing ability, is perfecting a new type of dance. She calls it the hula-twist.

We also have a future famous politician in our midst. Bill Harty is now in his third month of a Senate filibuster.

Joan has retired. She started her career as a school nurse, but her red hair proved too great a temptation to the lice which were a part of her inspection duties.

John is one of our more prosperous businessmen. He is head manager of Jal, New Mexico, Janitor Department.

Mrs. Parramore, we shall skip. One doesn't have much of a future at her age.

Mr. Sinclair (last but not least) is in the poor house. He threw his billfold down just once too often.

And Larry, he's still trying to find a way down from the Empire State building, after climbing it the hard way, from the outside.

JUNIORS

Chapter 3 THE BEGINNINGS OF GOVERNMENT IN THE UNITED STATES

The roots of American government reach deep into the past. Our system of government did not suddenly spring into being as if the voice of some political magician's wand. Nor was it pulled out of thin air by the

The Colonial Period

Our English, Dutch, Norwegian, French, Spanish, and other European settlers in parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English colonies that stretched for thirteen miles along the Atlantic seaboard.

These early pioneers who cleared the wilderness and fought off the Indians had to look out their own economic future in the New World. But they came here in search of a better life.

Founding Fathers at Philadelphia in the summer of 1787. Building a new government through long, arduous, and often bitter debate. We still have many of the points of their beginnings.

dom and they brought with them the political ideas of the English. They brought with them the idea of a democratic government. They brought with them the idea of a government that was to be based on the consent of the governed. They brought with them the idea of a government that was to be based on the principles of liberty and justice for all.

SETTLERS AT WORK

Early Americans had to live together in harmony, or they would not survive. This was called "government in order to live." The beginning of our government today.

of which are to be found today—courage, honesty, duty, sheriff, coroner, and justice of the peace, for example. And all of these were well known in England long before the first Englishman ever landed in America.

(1) *The First Concepts of Limited Government and Civil Liberties.* They brought with them, too, the twin ideas of limited government and civil liberties. That is, that government is not all-powerful; that government is limited in what it may do; and, in particular, that it is limited in the ways

that each man has certain rights that government cannot injure or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

(2) *The Concept of Representative Government.* A third vitally important concept brought to America in English ships was that of representative government. For centuries there had been developing in England the
